Complete portfolio of past and ongoing projects in the period 2008-2018.

*Version of **June 2018***

CESO is an international development consultancy with over **40 years of experience** providing technical assistance services in the areas of economic, social and organizational development, mainly in international markets.

CESO has implemented more than **500 contracts** for clients such as the **European Commission, the World Bank, the African Development Bank, National Governments**, among others. CESO's professionalism, quality and efficiency, recognised by our clients, have consolidated us as a leading company in the international development consulting market.

Structure

CESO's core team consists of **24 professionals** with a wide experience in management, monitoring and evaluation of technical assistance projects in the company's different areas of specialisation, who provide quality coordination and technical backstopping to the teams of experts in the field.

Apart from the Lisbon Head Office, **CESO** has an associated company in Angola - CESO CI Angola - and in Mozambique - CESO CI Mozambique.

Additionally, **CESO** has a **wide network of over 10,000 international consultants**, including experts from universities, research centres, public administration, private companies and independent consultants. This database enables **CESO** to **quickly allocate experts** in the different fields of intervention required by the projects' beneficiaries or funding institutions.

International Experience

CESO has developed and implemented more than **500 international development consultancy services** and technical assistance to governments and public or private institutions in **112 countries on 4 continents**.

Most of these projects have been awarded through international **competitive bidding processes** supported by major development and cooperation agencies, such as the World Bank, the European Commission, the African Development Bank, the Inter-American Development Bank, the United Nations Development Programme and different UN agencies, as well as bilateral development agencies and governments of several countries.

Through the implementation of all its projects, CESO has built an image of **professionalism, quality and efficiency**, which is recognised by beneficiaries and international and bilateral financing institutions.

Areas of Specialisation

CESO focuses its activities on seven main areas of intervention, enabling us to respond to complex and multi-sectorial projects.

Partnerships & Financing for Development

Definition and Implementation of Strategic Partnerships and Management of Development Financing

Macro Economy, Statistics & Public Finance Management

Forecasting and Economic Planning, Public Investment, National Statistical Systems, PEFA Evaluation.

Trade & Private Sector

Regional Economic Integration, International Trade Facilitation, SME Development, Industrialization Polic.

Social Affairs

Educational and Vocational Training, Employability, Social Policies, Health Planning, Culture.

Public Sector & Governance

Modernization of Public Administration, Decentralization and Local Development, Civil Society and Democratization

Rural Development

Agriculture and Agribusiness, Food Security, Land Management

Transport, Energy & Environment

Transport Infrastructure, Natural Resources Management, Environmental Management, Energy, Water and Sanitation, Climate Change.

Types of Services

In each of the above areas of intervention, **CESO** provides four key *types of services*:

TYPES OF SERVICES	DESCRIPTION
ADVICE AND STUDIES	Support services for the design of strategies; identification and design of plans/programmes, projects and policies; feasibility studies; baseline studies; technical studies to support political decision making.
INSTITUTIONAL STRENGTHENING / CAPACITY BUILDING	Technical assistance and support to institutions aiming at improving its organisation and efficiency; implementation and management of strategies, policies, plans, programmes and projects.
MONITORING AND EVALUATION	Design and implementation of monitoring and evaluation systems for strategies, policies, plans, programmes and projects.
TRAINING	Services focused on the individual's capacity building, including curriculum design, preparation of training materials, course delivery, use of teaching methodologies, and training for trainers.

Our Approach

CESO believes each client has a specific need. Our task is to understand every new challenge and provide adequate solutions in a dynamic, integrated and inclusive way.

To achieve this, we have established the “SKIEs methodology” as our approach to consultancy services. This means that in all phases of our business operation - from business development to technical implementation and research & development - we bring together the following elements:

- ***Skills*** - Allocate highly competent experts with a vast experience.
- ***Knowledge*** - Access to specific technical know-how for each project's area / sector to deliver high quality technical results.
- ***Information*** - Access to information about the market to positively influence the outcome.
- ***Energy*** - Capacity to mobilise adequate financial and time resources consistent with the size and needs of the challenge ahead.
- ***Experience*** - Continuously generate new knowledge and information from each project to support future opportunities.

Quality Control System

CESO's quality management system is certified by *Bureau Veritas*, in accordance with the standard NP EN ISO 9001:2008. Hence, all our acquisition processes, project administration and management are scrutinised, analysed and optimised to ensure the quality of our services

Work with the European Commission under the Framework Contracts

The European Commission (EC) is one of CESO's major clients. Since 2000, CESO has regularly provided consultancy services to the EC under the Operational Framework Contracts for Services (EC FWC) in several countries and domains.

For the years 2018-2022, CESO integrates different consortia for the Multiple Framework Contract to Recruit Short-Term Services in the Exclusive Benefit of Third Countries Benefiting from European Commission External Aid 2018-2022 (FWC SIEA 2018) and works in the following fields:

- Lot 1: Sustainable Management of Natural Resources and Resilience
- Lot 2: Infrastructure, Sustainable Growth and Jobs
- Lot 3: Human Rights, Democracy and Peace
- Lot 4: Human Development and Safety Net
- Lot 5: Budget Support
- Lot 6: Innovative Financing for Development

In the past, CESO joined five other Framework Contracts: i) For the years 2013-2017, Multiple Framework contract to Recruit Short-Term Services in the Exclusive Benefit of Third Countries Benefiting from European Commission External Aid (BENEF 13); ii) Multiple Framework contract to recruit short-term services in the exclusive benefit of third countries benefiting from European Commission External aid 2009-2013 (BENEF 2009); iii) Multiple Framework contract to recruit short-term services in the exclusive benefit of third countries benefiting from European Commission External aid 2005-2009 (BENEF 2005); iv) European Commission Framework Contract for Services (COM 2004); v) European Commission Framework Contract (AMS-451).

In this scope, CESO gained expertise in diverse fields, namely Rural Development and Food Security; Governance and Home Affairs; Health; Culture, Education, Employment and Social Affairs; Trade, Standards and Private Sector; and Macroeconomic Statistics and Public Finance Management.
